

Sambhav Sahoo

UI/UX Designer & Frontend Developer (ReactJS)

UI/UX Designer & Frontend Developer with 3 years' experience building user-centric, scalable digital products. Skilled in product thinking, interaction design, rapid prototyping, and React-based frontend development. Bridging design and engineering to deliver clean, intuitive, production-ready interfaces. Experienced in fintech, SaaS, and admin tools.

Work Experience

UtkalLabs

UI/UX Designer & Frontend Developer

Jan 2023 - Present

Fintech Loan Platform (Mobile + Web)

- Designed end-to-end UX for ONDC-enabled loan journeys (onboarding, KYC, loan selection, EMI setup, repayment).
- Built component-driven design systems and scalable interaction patterns for fintech workflows.
- Developed the responsive marketing site using React + MUI, optimized for performance, SEO, and accessibility.
- Partnered closely with engineering for efficient design-to-development alignment.

VIXA Network (Web App)

- Designed the complete user experience and interface for VIXA, a web-based platform focused on streamlined digital interactions.
- Developed the frontend using ReactJS and Material UI, implementing responsive layouts, scalable component architecture, and intuitive user workflows.
- Collaborated with cross-functional stakeholders to translate requirements into high-fidelity prototypes and production-ready UI.
- Delivered an optimized, accessible, and performance-driven interface improving overall usability and user engagement.

HireXpert - Collaboration App

- Redesigned the entire platform UI to improve task clarity and reduce user friction.
- Conducted user research & usability testing to refine flows and enhance usability.
- Built reusable UI components using React, ensuring consistent implementation across features.

Highlighted Projects

Tour2Odisha – UI/UX Design (New)

- Designed a modern travel booking experience with intuitive search, destination exploration, itinerary planning, and booking flows.
- Created a clean visual system with modular components suitable for both web and mobile.
- Focused on usability, accessibility, and scalable layout decisions.

Portfolio Website (UI/UX & React Development)

- Built a responsive, React-powered portfolio showcasing projects, case studies, and blogs, enhanced with motion UI and smooth interactions.
- Used motion libraries like Framer motion and GSAP, integrated Calendly focused on usability, clean visual hierarchy, and performance optimization.
